Acknowledgments

Blah, blah, blah...

1

Introduction

This is a book created from markdown and executable code.

Here's a basic plot:

```
library(ggplot2)

pie <- ggplot(mtcars, aes(x = factor(1), fill = factor(cyl))) +
  geom_bar(width = 1)
pie + coord_polar(theta = "y")
```

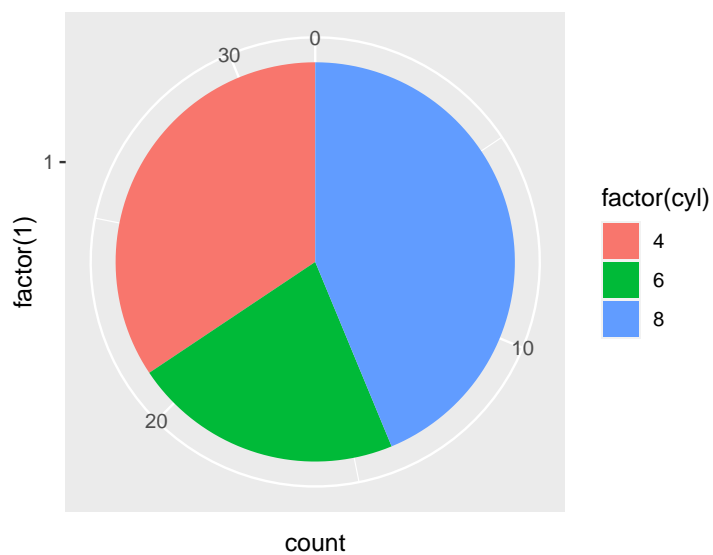

Figure 1.1 A pie chart using polar coordinates.

See Knuth (1984) for additional discussion of literate programming.

2

Summary

In summary, this book has no content whatsoever.
